Dear Chairperson Meade,

Would the Tribal Council consider donating the Clark St. house to the Housing Authority? We believe it would be an appropriate property to operate as a market rate rental serving short-term Tribal housing needs, such as emergency housing for people with background issues, interim housing for new Tribal employees and MHAP recipients while they seek permanent housing, etc.

Also, we have identified an area in the Kilkich community that is not quite large enough to build a standard single-family home but could fit two tiny houses in an L-shaped configuration. If sufficient occupancy tax funds are available, an additional appropriation would enable CIHA to begin development of market rate rental opportunities on Tribal lands.

If you have any questions or need additional information, please contact CIHA Executive Director Anne Cook at (541) 888-6501 or annecook@coquilleiha.org.

Sincerely,

A handwritten signature in blue ink that reads "Toni Ann Brend".
