Dear Chairperson Meade,

At its meeting on December 14, 2017, I asked the CIHA Board of Commissioners to re-examine the method by which lots are awarded under CITC Chapter 420 – Private Residential Land Leasing Ordinance. I, along with other Tribal Council members, had been approached recently by a Tribal member unhappy with the size of the lot she had been awarded.

Because the topic involved the personal circumstances of individual Tribal members, the discussion was conducted in closed session. In essence though, conversation included a thorough review of the selection methodology prescribed by ordinance and past difficulties with lot assignments.

I look forward to conveying the Board's recommendation to you at CIHA's workshop on January 10, 2018.

Sincerely,
