

Creating a certified digital identity

Thank you for your participation in the State, Local, and Tribal Governments Support Programs.

In order to more efficiently and transparently meet the terms and conditions, all participants must have **certified digital identity**. There is a **three-step process** to receive verified credentials from our certified identity provider (ID.me). We expect the entire process will take about 10 minutes for most people.

To get started, visit <https://portal.treasury.gov/cares/s/slt>, click on **create an account**, and follow the instructions.

STEP	NOTES
Step 1: Verify your email	Use same email address from your SLT Portal welcome email.
Step 2: Set up two-factor authentication	For this step we recommend using a cell phone, but other options are available.
Step 3: Verify your identity	For this step you'll need an official photo ID. We recommend using a device with a camera where available, but identity verification calls are also available at no cost to you.

Throughout this process, your information will remain completely secure. The process does not require a credit check.

When you've finished, you'll get a confirmation email that means you can now log in to the [SLT Portal](#) with your new ID.me account. The CARES Portal works best with [Google Chrome](#).

If you have questions about using ID.me to establish your credentials, please contact ID.me support at <https://help.id.me/>. For assistance with technical issues with SLT Portal, please contact us at covidreliefitsupport@treasury.gov. We appreciate your timely action to fulfill these requirements.

For More Information

While the ID.me site has excellent instructions on creating and validating your digital identity, some participants may want step-by-step instructions with screen shots. These detailed instructions are available here:

<https://home.treasury.gov/policy-issues/coronavirus/assistance-for-state-local-and-tribal-governments>

The requirements for CARES Act credentials are defined by [NIST SP 800-63 v3](#) (Digital Identity Guidelines). ID.me is a certified commercial identity provider offering Identity Assurance Level (IAL) 2 and Authentication Assurance Level (AAL) 2 credentials. No Personally Identifiable Information will be retained by ID.me.
