Pacific Power Medical or Life Support Equipment Certificate

This certificate must be completed by a qualified medical professional certifying that a customer of Pacific Power, or a member of a customer's household, has a medical condition that would be adversely affected if their electric service is disconnected for nonpayment of bills.

Completion of this form allows Pacific Power to assist the customer in managing their electricity bills beyond what is normally allowed.

This certificate does not guarantee that power won't be interrupted from weather related outages, other circumstances outside of Pacific Power's control, or disconnection of service for nonpayment of bills. We recommend that one or more emergency plans be identified if deemed necessary.
