

COQUILLE INDIAN TRIBE

KILKICH TRANSPORTATION SAFETY PROJECT

Project Update • July 26, 2024

CONSTRUCTION ACTIVITIES

Welcome back! Since we last updated, the vault lid in the drive lane of the intersection has begun to fail. Knife River has put a large metal trench plate over the vault to prevent future failure while a new more robust lid was being custom fabricated. The lid is now ready for installation. Next Tuesday, July 30th, Knife River will be installing the new replacement lid. There will be flaggers to route traffic safely around the work zone. This work will take most of the business day and will cause minor traffic delays. Please plan accordingly. We thank you for your patience while we make this needed repair.

WHAT TO EXPECT IN THE NEAR FUTURE

The beautiful fence is nearing completion and is set for delivery towards the end of October. An update will be shared as this date gets closer and the installation is ready to begin.
