

WALKING GUIDE

for Coos Bay & North Bend

In May of 2023, Coos Bay Public Library, Oregon Health & Science University (OHSU), and twenty members of the Coos Bay community formed the Sole Mates. This partnership began a two-year research study to learn the effects of walking as a group and engaging civically to improve public health and walkability in our community. The Sole Mates decided to use funds awarded by OHSU to create this free walking guide to inspire other community members to get outside, walk, and improve their health.

Our Mission: To promote walking by creating a resource that inspires safe physical activity.

Coos Bay Boardwalk

200 S Bayshore Dr, Coos Bay

Distance: 1 mile, walking south from entrance to end and back.

In the heart of downtown, along Hwy 101, sits the picturesque Coos Bay Boardwalk. A short stroll north leads to a view of working ships, a tugboat display, interpretive area, and a covered picnic area. The path leading south is accessible, level, and appropriate for all ages. Enjoy a panoramic view of the bay and downtown whether you want to take a stroll along the water's edge, rest on the benches facing the small marina, or fish at your leisure.

Mingus Park

230 N 10th St, Coos Bay

Distance: Full loop approx .60 of a mile.

Nestled west of Downtown Coos Bay is Mingus Park where visitors can walk around a pond and enjoy the scenery of fountains and waterfowl. Many benches surround the pond for rest or enjoyment. Follow the path to the Japanese Garden, bridge and bamboo forest. Use caution on the bridges when wet.

<https://www.coosbayor.gov/community/city-parks/mingus-park>

Millicoma Marsh Trail

298 4th Ave, Coos Bay - Eastside

Distance: 1.8 miles.

Embark on a peaceful trail located behind Millicoma School. A well-maintained, level path leads you through scenic views of fresh and saltwater wetlands, marsh, and the bay. Four-sided interpretative columns feature wildlife and tribal lore. Head east on the south side of the track to a grassy trail. For a brief walk take the short trail, Swallow Loop, or traverse further east past a pond and to a lookout of the salt marsh. Backtrack west and continue on the dike path north that will loop around back to the north end of the track. The track/field may be busy during school hours so please avoid disturbing students. This is a great trail for bird watching.

John Topits Lower Loop

355 Hull St, Coos Bay - Gates open from dawn to dusk

Distance: 1 mile walking west and following the loops back east.

John Topits was the generous donor of this 120 acre park to the City of Coos Bay. Year round recreation includes kayaking, fishing, hiking, biking, and nature watching. Trails are paved and there are various routes along the lake and back through the woods. The lower loops lead to Lower Empire Lake and are under the tall forest canopy of fir and spruce trees. Trails are mostly level, with some short elevations. Expect large puddles during the wet season.

Wooden Bridge

— Red Trail- Inner Trails
 — Yellow Trail- Connecting Trails
 — Blue Trail- Outer Trails

See the full map with all trails here: <https://tinyurl.com/3ch7wtu2>

John Topits Upper Loop

355 Hull St, Coos Bay - Gates open from dawn to dusk

Distance: 1 mile, walking north to loop around down south.

John Topits Park is located between the community college to the east and Lakeshore Drive to the north. A kayak launch and shallow beach make entering the water easy. A constructed bank and benches invite visitors to rest or fish for various fish species, including the annually stocked trout. Follow the Upper Empire Lake to the northern loops for more fishing spots along the bank and to walk towards the east end of the Lower Empire Lake. This path is more exposed to sunlight and the forest consists of young pine trees, rhododendrons and evergreen huckleberries.

Cape Arago Trails/Shore Acres

43°19'25.2"N 124°22'54.9"W

Distance: Over a mile for a full loop.

Various trails will lead in and out of Shore Acres State Park, once a large estate of the timber baron Louis J. Simpson. Entry into the main entrance requires a day use pass. The observation building is a welcome feature on wet and windy days to safely view thundering and towering waves during high surfs and King Tides. For the more daring there are closer paths to the cliff edges that will thrill the senses with the power of the ocean, but stay behind barricades and fences. Take a more calm and serene walk through the botanical garden. The trails leading north out the park will lead you through the old tennis courts, and old gate pillars to the estate. Keep heading north on the trails and you'll spot the Cape Arago Lighthouse.

<https://tinyurl.com/4ezwrrf6>

Cape Arago Trails/Simpson Reef

43°18'45.0"N 124°23'45.1"W

Distance: Over a mile for a full loop.

Parking is located in the Shore Acres State Park (fee) or use any of the parking spots and long shoulders (free) to access different trailheads that lead to the cliffside edges. The path leading from Simpson Reef can be steep and challenging for some users, alternatively the trails farther north will be level and easy. These trails offer impressive cliffside views and geological wonders. A beach can be accessed in a small cove just south of the gardens.

Airport Heights Park

2998 Colorado Ave, North Bend

Distance: 1.7 miles.

Located in the Coos County Airport District, this park offers dedicated sports area and a children's play area. Head west on the sidewalk from the playground area to the sandy trails along Colorado St. For a more lengthy route you can cross the road to Cessna Circle and continue south along a gravel path to Connecticut Ave and another gravel trail that will curve back north to a paved path with stunning views of the North Spit across the bay. The paved trail is parallel to the airport runway so you can watch airport traffic. The trail ends at the end of Airport Lane and you can continue to walk the road back to the park. No restrooms available.

<https://tinyurl.com/2mrs4zae>

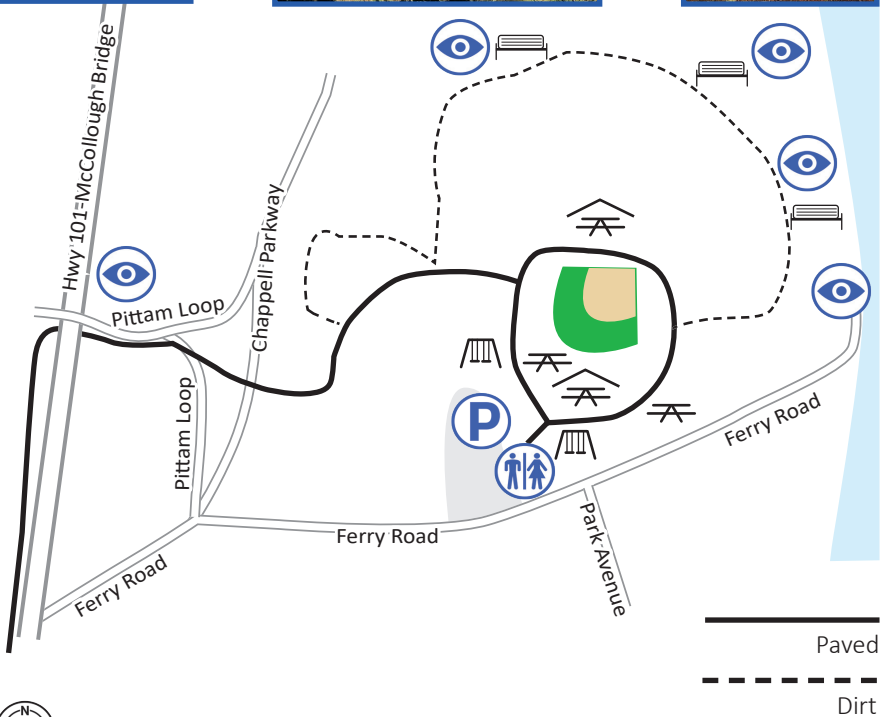

Ferry Road Park

496 Park Ave, North Bend

Distance: Up to a mile.

This is a multi-use day use park with two playgrounds, disc golf course, flush toilets, small pavillion, and large pavillion available by reservation. Be mindful of active disc golfer players as they throw discs over paths to reach the disc golf cage. Trek through the forest trails through various berry bushes, as you stroll along for the best view of the Historic McCullough Bridge. A paved trail will lead you around the park and its features to the crossing at Chappel Parkway towards the underside of the bridge. Continue along the path parallel to the highway going south where it ends at the Pittam Loop exit to Highway 101. Reverse your steps back to return to the park and parking lot.

SAFETY TIPS

Wear appropriate footwear and clothing. Bring sunscreen, mosquito repellent, and drinking water. Equip a walking stick if needed for stability. Dress for the weather and anticipate it to change. Pay attention to your footing, especially for a first time trek to a new trail. Leave no trace and take any trash or dog waste with you.
